Thonburi (KMUTT)**

**Bachelor of Science in Information
Technology (B.Sc.IT)**

2019- 2022

**Gifted Science-Math-Technology
Program Kanaratbamrungpathumtani
School, Pathumthani, Thailand**

EXPERIENCE

Integrated Project- Kradan board

<http://intproj23.sit.kmutt.ac.th/us1>

The "Kradan board" is a group project for the INT 221 course. This project involves creating and managing task lists. The system was deployed by using Vue.js and Java Spring boot. The project follows the Scrum framework for its workflow. I am Frontend developer in this Project.

Project - Math Raining

<https://resonant-paletas-5c7fec.netlify.app>

The Math Raining Game Project is a game that generates random mathematical expressions, requiring players to quickly and accurately solve them to earn points. This project is part of the INT 203 course and utilizes HTML, CSS, Vue.js, and JavaScript. I was responsible for designing the UI in Figma, implementing the core function to generate random mathematical expressions (+, -, *, /), and designing various game elements.

Database Project - Movie System 2023

Use MySQL Workbench to design and build a database about Movie System, which is a database that stores information about the seat , ticket , movie and cinema hall

Project- Game Diary

The Game Diary Project is an individual project that is part of the INT 102 course, developed using HTML and CSS

UX / UI Project - Moddang link

[Moddank Link](#)

It is a UX/UI group project for the INT 104 course. The project focuses on designing the UI using Figma to enhance the user experience.

Codewars practice

<https://www.codewars.com/users/Jiranans>

I practice coding problems on Codewars ,mostly in JavaScript and have achieved a 5 kyu rank

ACTIVITY

SIT Hello World 2022 camp

I participated in the SIT Hello World 2022 program as a Game Developer. I took part in workshops and collaborated on a group project Game Escape that using the Phaser framework.
